**ABOUT NAGAMBIE RESOURCES**

Flagship project is the 100%-owned Nagambie Antimony-Gold Project which encompasses the very-high-grade Nagambie Mine discovery, the historic Whroo mines and the Wandean deposit (discovered in 2014). The discovery of antimony (Sb) and gold (Au) in multiple vein systems at the Nagambie Mine is of national significance given the vital importance of antimony to the economies and defence capabilities of many nations including the US, Canada, UK, Europe, Japan and Australia. Nagambie already holds a Mining Licence over the discovery, giving the project a clear path to development.

Nagambie's 1,000 sq km of tenements are located near the current gold-antimony mines at Fosterville (Agnico Eagle) and Costerfield (Alkane Resources).
